

Adarsh yadav

Full Stack Developer || Frontend Specialist

Professional Summary

Enthusiastic Full Stack Developer with hands-on experience in building responsive web applications using React.js, Node.js, and MongoDB. Passionate about learning and collaborating in fast-paced tech environments.

WORK EXPERIENCE

Frontend Developer Intern

Prodesk IT (1 Month)

- Worked on multiple frontend tasks using **HTML**, **CSS**, **JavaScript**, and **Bootstrap**
- Contributed to **2 major Projects**, handling responsive UI design and component development
- Collaborated with the development team to meet project deadlines effectively

Full Stack Developer Intern

CodeVeda | [1 month] – Present

- Currently working on both **frontend and backend development** using **React.js**, **Node.js**, and **MongoDB**
- Actively involved in designing APIs, integrating databases, and building dynamic web apps
- Following agile methodology with daily tasks and progress tracking
- Enhancing skills in full stack development under industry-level mentorship

PROJECT

1. Virtual AI Assistant

- Built an interactive AI assistant that responds to user queries through text-based input/output
- Implemented basic NLP (Natural Language Processing) logic to simulate conversation
- Designed a user-friendly interface for desktop users
- Goal: To create a basic smart chatbot experience using only frontend technologies

2. Commercial Website for a Business

- Developed a fully responsive commercial website showcasing business services and products
- Designed multiple sections including Home, About, Services, Contact Form, and Product Listings
- Focused on performance, clean design, and SEO-friendly structure
- Learned client-side structuring and modern layout techniques

3. Weather Web Application

- Created a weather app that displays real-time weather data for any city
- Added location search functionality and dynamic icon updates based on weather
- Practiced working with APIs, JSON, and asynchronous JavaScript (fetch)
